Ice Cream Shop.   5

    -> Decorator Pattern

- A list => # of orders
- A Map -> table # to orders (list of orders) | item/decorator to price
- Enums -> size or sugar free, fat free, etc.
  mandatory aspects.
  cones vs bowls vs etc.

, Exception Handling. - Reading in from file all menu items & types.

=> MVC would be pretty easy
=> Singleton for Input Helper.
